

2025 FATHER & DAUGHTER PROGRAM

IMPACT REPORT

Empowering girls and families through STEM

ABOUT THE FATHER & DAUGHTER PROGRAM

Instilling confidence in girls through STEM

ABOUT

On March 11, we hosted our Lead with STEM & Connection: Father & Daughter Program at Three Rivers Corporation, with over 50 participants. Girls ages 6-18, along with their male mentors, enjoyed an evening of building confidence and connections through various STEM activities. This event provided attendees with opportunities to:

- Gain a deeper understanding of STEM.
- Grow confidence in their skills and abilities.
- Feel empowered to make decisions and overcome challenges.

OUTCOMES FROM EVENT

Participants gained positive outcomes, including:

- Increased confidence and belief in their skills and ability to solve problems.
- Special one-on-one time to connect and grow a deeper bond.
- A better understanding of STEM and opportunities for a career in the future if desired.
- The chance to see the positive effects of working together to reach a common goal.

I learned that there is many different ways to do something

Youth attendee

I liked that the focus what on doing something, not just being something

Mentor attendee

I learned how to hammer nails and how to build

Youth attendee

I learned the importance of working together to complete a project without having pressure or anxiety.

Mentor attendee

I learned that I need help from my dad

Youth attendee

IMPACT

Helping girls gain tools to overcome challenges and embrace curiosity

FAVORITE ACTIVITIES

- Building a birdhouse and learning about the different types of birds that would nest there.
- Teamwork cup stacking with rubberbands and strings
- Robotics team demonstration, driving a model robot and making affirmation buttons.

RELATIONSHIP GROWTH

Strengthening the bond between youth and their mentors was an important outcome. Post event surveys showed:

93% of mentors reported that attending this event helped them to bond with their child.

“

I always tell my daughter she can do anything and the opening comments from DuPont reinforced that.

Mentor attendee

”

Our post event survey shows a positive impact on girls, not only in skill development but also in fostering a supportive environment and sparking continued interest in STEM:

83%

likely to explore STEM opportunities in the future.

95%

gained new knowledge and skills in STEM.

64%

of mentors learned tools to support their mentees

92%

felt reaffirmed in the support from their mentor.

THANK YOU TO OUR PARTNERS!

We appreciate the support and
dedication to supporting families
in our community
